**600 schools in 20 States of India  
have adopted the Ipsative last year.**

## How We Transform Schools

Schedule of events to transform schools	Explanation
Observation with Follow-up Targets	An audit of present teaching practices and evaluations where teachers levels are at. Includes infrastructure review to help bring school to an international level.
Baseline Survey (before training)	Evaluation by directors, principals, teachers and parents to pinpoint problems that need addressing in your school.
Interactive Training	See our tried and true training process / modules that we know will transform your school.
Parent Workshop	Bring your parents on board to transform teaching and learning processes. Parent support is vital!
Transformation Surveys (on-going and at end of the engagement)	Surveys are done by observations in your classroom of recently taught best practices modules. Trainers check on implementation. Surveys and teachers observations of their experiences with new methodologies are reviewed. Retraining is given as required.

### By Transformative Training We Mean:

*Change that is 'measurable', Empowerment that 'lasts'; and, Training that 'sticks'.*

Such a transformation requires commitment to long term deeper engagement.

**Deeper engagement levels C & D** include hand-holding, classroom observation, planning of activities, development of rubrics, supervision and support for success, action research and follow-up actions besides interactive training sessions.

Regardless, schools are welcome to sign up for short courses, should you wish, as GETI short courses includes a certain level of 'stickiness'.

Two ways to purchase get GETI Transformative Training:

1. Select the training module. We can also customize our training per your needs or make suggestions for what is most suitable for your school based on a quick audit or a questionnaire.
2. Deeper engagement for those who want a long-term, sustained transformation Keep in mind that in deeper engagement, levels C & D, not every day is training.

## Geti Training. Supervision and Support

# iversusi Assessments

*When perfection is the goal*

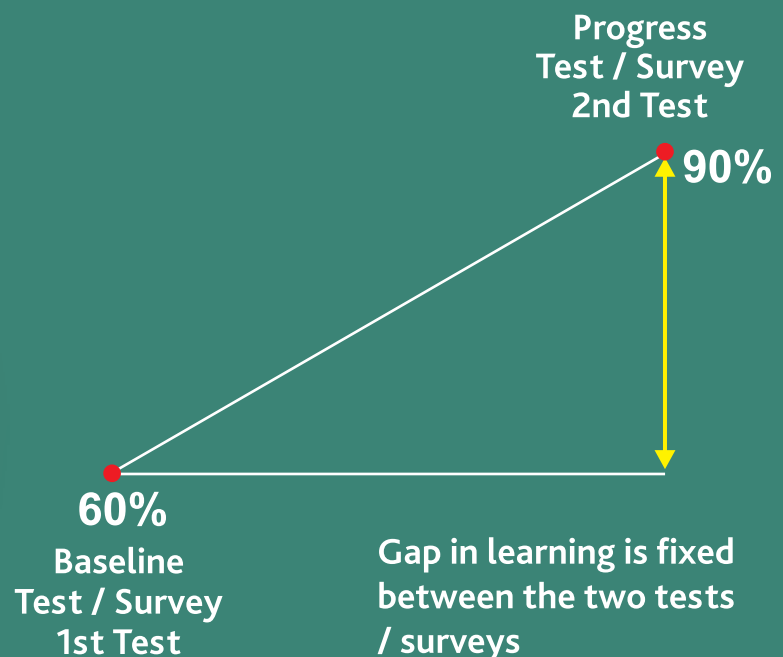

**iversusi assessments are unique:**

- Half yearly – 2 tests and at the end of year -2 tests
- Dual tests ensure greater learning
- Gap in learning shows the effort between the 2 tests/ survey

**How it is Done:**

- First assessment provides an insight into how well a lesson was understood by each student
- Teachers and student get personalized feedback
- Acting upon this feedback an opportunity is provided for corrective actions
- Improvement is seen after the second progress test
- Students have progressed, therefore all students celebrate progress
- Teachers generate reports after scanning with a mobile app
- Correction work and final entry of marks
- Most importantly, instantly it generates a report for the teacher and parents
- According to the world's largest meta-analysis researcher John Hattie, instant feedback has the highest impact on learning and retention

## iversusi dual perfection

PRE-PRIMARY TO CLASS VIII

# Spoken<sup>®</sup> ENGLISH & LISTENING

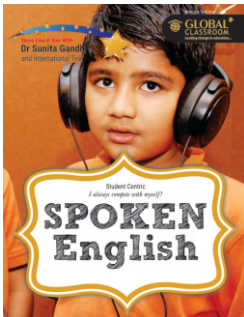

LEAD CHANGE, TRANSFORM EDUCATION

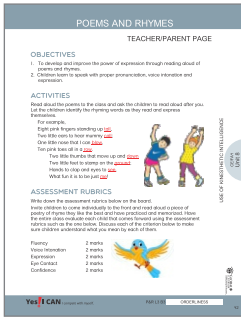

Pre-primary

Primary

Junior

The entire book except for teacher page, is spoken out page-wise.

SPOKEN ENGLISH — Puts the focus on building great speaking skills in every classroom.

• **A RANGE OF ACTIVITIES**

Speaking in English is encouraged through story-telling, conversation, vocabulary & spelling, expressing, show & tell, and role-plays.

• **ASSESSMENT RUBRICS**

All lessons come with assessment rubrics that allow students to evaluate themselves against standards that are clear and transparent.

• **FOCUS ON LIFE SKILLS**

Life skills are integrated in a fun way through paired and group activities and role-plays. Develops voice intonation, pronunciation, body language and personality.

• **INVOLVING ALL CHILDREN**

Involves all students in every activity and suggestions for these activities are provided with each lesson.

- \* Spoken English is an activity-based series to help students use the language effectively and develop both speaking and listening skills.
- \* This series assembles the essentials of traditional grammar and the main aspects of communicative and functional grammar, precise writing, prose and poetry comprehension.
- \* Students develop vocabulary, the use of prepositions and tenses.
- \* Develops voice intonation, pronunciation, body language and personality.
- \* Books for the upper grades

cover group discussion, self-introduction, interview skills, speaking in first, second and third person, body language, personality development, attitude and other valuable skills that senior students need to have in order to do well in college and beyond.

- \* May be integrated as part of English lessons once a week, taken up as an extra activity on Saturdays, or become the focus with daily immersion over a month.
- \* Students may perform many of these Speaking English activities in front of parents at events organized by the school.
